Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days.

Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Birth Chart

This birth chart report shows the positions of the planets for Thompson.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Pisces

As the twelfth and last sign of the zodiac, Pisces contains within itself a little experience of all the signs. This gives Pisces Suns the ability to identify with people from all walks of life--from all backgrounds--in some way. These individuals are not only changeable and adaptable, they have open minds and tremendous understanding. But Pisces itself is often misunderstood. Pisces Suns may spend a good portion of their lives yearning for understanding, and the other part in a state of divine discontent. Suffering is sometimes glamorized in the Piscean world.

Sun in Pisces people are frequently pegged as wishy-washy, but this is all a matter of opinion. What you will find behind a vaguely directionless, spacey manner is a deep person with real dreams. Their dreams are more than getting that picket fence or making it up the corporate ladder. Pisces are tuned in to a higher purpose, and their dreams transcend the individual. A deep love for humanity and compassion that knows no bounds are found with this placement of the Sun.

Pisceans are *not* known to be cutthroat business types, nor are they given to throwing themselves out into the world aggressively. But make no mistake, Pisces can be extraordinarily successful when given a chance to express themselves. The arts, marketing, music, teaching, drama, and healing arts are all fields in which Pisces can find expression. Their imagination, attunement to humanity, and remarkable intuition endow them with enviable gifts of insight and creativity.

Pisces is a sensitive sign--both sensitive to criticism and sensitive to others' feelings. Easily touched by human suffering, at least in theory, Pisces wouldn't hurt a fly. They believe in people, are deeply hurt by compassionless human behavior, and have difficulty saying no. Harsh realities are avoided either through escapist behavior or self-delusion, but every now and again, reality does raise its ugly head and hits Pisces over the head--a sad time indeed! Pisces retreats into their own world, self-pitying and giving pep talks to themselves ("I will never trust again!"). Rest assured, though, that these periods are short-lived and useful. Pisces derive energy from their (generally short) bouts of self-pity. They come back stronger, with a spring in their step, ready to face the world again, and just as, if not more, compassionate and trusting as they were before.

Some might even wonder if Pisces finds pleasure in suffering. Sometimes this is the case, but most of the time, Pisces pulls a lot of creative energy from sadness. Pisces is the poet or artist with angst, although this trait is often more apparent with Moon in Pisces.

Some find Pisces' tendency to be late for appointments, sometimes spaced-out behavior, and absent-mindedness amount to irresponsibility. Pisces would be shocked to know this, however. Who me? Pisces wonders. Irresponsible? Pisces Suns do care--their love knows no bounds--but their retreats from ordinary life (whether they are as simple as daydreams or actual departures) that they so seem to need now and again are not always understandable to no-nonsense signs, such as Virgo or Aries. Many Pisces seem almost allergic to things like shopping lists, maps, directions, and instructions, and for some brave souls, even watches -- they prefer to feel their way through life than to follow some plan. We find plenty of artists, poets, and musicians with Sun (and other personal planets) in Pisces.

Short description:

He is compassionate and sentimental. He likes isolated occupations: administration, archives, history. Spirit of self-sacrifice.

Potential issues: a tendency to be led astray, lack of experience, or inability to apply experience practically. Lethargy, over-sensitivity, and emotionalism.

Pisces with ascendant Gemini

Sun in XI: The Sun is in the eleventh house

You are a humanitarian who aims to treat everyone as equals. You seek to be unique and original and do your best to avoid bias and prejudice. Social status is less important to you than belonging to a group of diverse personalities. Your identity, in fact, is somehow linked to a larger unit than yourself. You have high hopes and goals and tend to look at life in terms of opportunities. You have magnetic appeal, as people sense your broad tolerance and openness. The friendships you establish are crucial to your development. If you identify too much with your friendships and your friendliness, you may become too impersonal and alienate those who would like to get close to you. You are a leader in groups and people look up to you.

Key points:

A successful career thanks to the support of patrons, friends, or relations. He needs to be engaged and intrigued. He is idealistic, socially concerned, hopeful, and interesting.

31 Sextile between the Sun and Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people.

You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to most people, and your self-confidence and security make you easy to deal with on many levels.

Your relaxed, easygoing disposition puts others at ease. Your "default setting" can be unprepared for conflict, and you often avoid "rocking the boat." You may acquiesce to others a little too often, if only to maintain balance and harmony, as you prefer to avoid conflict.

This influence brings a tendency toward too much acceptance--of the self and others. You may need prompts and encouragement to question life, or you risk taking things for granted.

Your vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the ups and downs that often plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and emotional needs differ, they are largely in harmony.

Short description: Well-rounded and harmony-oriented. He has lots of vitality and more potential than he may realize. He likes public life; he is popular, and others appreciate his company. He is balanced, at ease with himself and usually gets on very well with his parents or guardians. He makes a good guide or mediator.

199 Conjunction between the Sun and Lilith

He is fundamentally comfortable with the darker side of his nature. A student of human nature, he is observant, incisive, unique, unusual, and fascinating.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Taurus

Familiarity is important to Lunar Taureans. These people are earthy and strong-willed. They feel with their senses, and they are pretty much rooted in their ways. They revel in material comforts--in fact, building a solid and comfortable home and foundation helps to keep them feeling safe and content.

It isn't wise to try to push Lunar Taureans into doing anything, but once they have committed, they're persevering. There's a steadiness to this position of the Moon that is comforting to those close to them. But the conservative streak in these natives can be maddening to more

progressive personalities. They tend to go out of their way to avoid "messy" or unpredictable situations, crises, and emotional displays. Instead, they focus on creating a reliable and secure life around them.

In relationships, Lunar Taureans may not easily recognize their partner's need for change, growth, or emotional stimulation. However, Moon in Taurus natives are generally very romantic. Their affections are strong, deep, and unwavering. They are sentimental and warm.

Since Taurus is a practical earth sign, the placement of the Moon in this sign suggests an ability to protect themselves and their own interests. They rarely make a move without first determining that it is safe and that there's something in it for them. Generally, Taurus Moon people have reliable instincts. They are very much tied to the physical world, and they often have a particularly well-developed sense of smell.

Relationships with people born with this position of the Moon are often quite enduring. Many Moon in Taurus people hang onto their mates, even in the face of serious conflict. Taurus is a fixed sign, so break-ups don't happen easily.

There is a calming serenity to them. In fact, it takes a lot to really get to them. However, they do get off-center every once in a while. They are not the most adaptable people when their own routine is interrupted, for example. Though some Lunar Taureans might be considered inflexible, most simply have a stubborn streak that keeps them rather resistant to change. Rarely are they spontaneous sorts.

Uncomfortable with surprises, these natives value stability. Their needs are strong but quite simple at the same time--they love the "good things" in life. The world of the five senses is all-important to these natives. Their love of stability and steadiness can make them slaves to routine. However, they are loyal and capable people.

Short description:

Sweetness itself. Convinced of his ideas and strong-willed. He is foresighted and willful. He knows how to trust. He appreciates all the good things in life. He appreciates and protects nature.

Possible issues: excesses in pleasure, laziness, sensuality, thoughtlessness.

Moon in XII: The Moon is in the twelfth house

Curious and inquisitive nature, although more of an observer than a person who asks many questions. He likes peace and quiet, emotional space and solitude.

This position of the Moon indicates an emotional attachment and sensitivity to all that is ethereal, groundless, and eternal. As sensitive as you are, you often have delayed reactions to your own emotional experiences. You need frequent moments of solitude to recharge yourself emotionally, and this need, while strong, can also lead to feelings of isolation and of being misunderstood.

While you are a perceptive person, you are often either flooded with emotions that are hard to define or completely out of touch with what you are feeling. Either extreme keeps you from truly discovering your emotional needs.

Negative expressions of this position are avoidance of responsibility, using hypersensitivity as an excuse to oneself (and perhaps to others) for not participating, or emotional immaturity. You are sympathetic to others' suffering but not always emotionally available to help.

Given distinct times to yourself and for emotional renewal, you are at your compassionate, wise, and intriguing best.

-116 Square between the Moon and Uranus

He may at times suffer from an almost feverish, non-constructive restlessness. He is too susceptible. His life can be full of change or the emotions are often in a state of flux. Also, frequent changes of mind. He is irritable and stubborn at times due to an inner restlessness that is hard to satisfy. He can have difficulty concentrating on a job, although is capable of much if allowed to move from task to task to alleviate extreme boredom with routine. Nervous strain. His friendships may be like his professional and love life - sometimes unstable or erratic. There is a strong need for closeness, but when people get too close, he can get cagey, as he values personal freedom just as much.

218 Sextile between the Moon and Lilith

This aspect favors romantic and sexual relationships, giving charm, intrigue, and intelligence. Emotions are big, dark, and mysterious, but he embraces these things, instinctively understanding and accepting the many sides and complications of his feelings.

-73 Square between the Moon and Midheaven

He can have an irresolute nature, with sudden changes of humor. He is changeable, not always following through on his own objectives since these change often. This instability shows itself not only in professional life but also in love life and friendships. There can be a love-hate relationship with one's status or reputation. He may often feel misunderstood by parents, teachers, or bosses as the wrong image may be projected.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Pisces

He sponges up the feelings and moods of people and the environment around him. Moody communication--sometimes very talkative, other times withdrawn. Tactful, preferring not to offend anyone. Fertile imagination. Flexible mind, sometimes gullible, but usually simply open to possibilities. Indirect. It can be very hard to pin him down to any one belief or decision.

Mercury in X: Mercury is in the tenth house

His home and comfort are the most important things to him. He is intelligent and speaks easily and cogently. May easily keep many irons in the fire and follows through his activities. Could move house a lot for business reasons.

You are good with language, and generally use this talent in your profession. You can have an authoritative air about you, or you are talented at communicating and negotiating with those in authority. You might have more than one job going at once much of the time, you could change your career directions frequently, or you could be attracted to jobs that keep you on the move. You require frequent changes of setting or activities in order to remain stimulated and challenged. You are skilled at bringing fresh energy to your conversations or to your job, perhaps because you need the stimulation.

111 Sextile between Mercury - Mars

He likes discussions, debates, polemic. He has good judgment and can be very determined. He is a worker and has lots of energy. He has a lively intelligence and usually goes to the heart of things. He is enthusiastic, incisive, and energetic in thought and speech.

40 Trine between Mercury - Jupiter

He is intelligent with big ideas: He is tolerant and has a strong sense of justice. He has good judgement, good sense and has his feet on the ground. He has the "gift of gab," fully enjoys literature and learning. He is erudite and will usually be successful socially.

-57 Square between Mercury - Saturn

He is reserved, conservative, ambitious, and stubborn. He might have problems expressing himself, particularly verbally, due to shyness or fear of criticism. Social success may be slow and laborious, but he does not give up easily and is patient. Can spend a lot of time on communications and getting them just right.

Whatever you say and write is self-censored to some degree. It's hard for you to pour out your emotions, no matter how emotional or needy you feel on the inside. This is because you are always aware of what others might think of you with what you say. You are careful with what you reveal to others. You make plenty of disclaimers, and often come across as negative or sarcastic without intending to. You often review conversations you have had with others, and you often kick yourself for saying something you didn't intend to, or for not saying something witty. There can be some feelings of insecurity about how you speak and communicate in general. Self-consciousness and hypersensitivity is experienced with regards to your intelligence and/or ability to get ideas across to others, especially in youth. You need plenty of positive feedback from others in order to feel more confident and less "blocked".

Recognize that you are most likely harder on yourself about how you communicate than others are. Ask people close to you for an objective point of view. Chances are, they find you to be astute, intelligent, and an effective speaker or writer. We often tell our kids "don't worry about what others think", but telling this to a person with a hard Saturn aspects is not enough, nor is it realistic. They will worry. You rarely accept compliments whole-heartedly, yet you crave them and need them. Others around you tend to stop complimenting you, feeling that you either don't need compliments or don't want to hear them. Nothing can be further than the truth!

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aries

Venus in Aries people flirt by being up-front, direct, and even daring. They try to win you over by expressing how enterprising and independent they are. Their style of expressing love can be maddeningly "me"-centered, but the right person for them will find this approach charming. People get turned on by Venus in Aries' aura of innocent charm, even when they are being childish and impatient. Venus in Aries people behave in a childlike, fun-loving manner in love. They are turned on by energy and activity. Turn-offs include a relationship that is considered stuffy or too "mature", vagueness, and beating around the bush. In love, Venus in Aries people are hopelessly addicted to the conquest. In order for a relationship to remain fresh and new for them, they require plenty of stimulation.

Pleasing Venus in Aries involves fueling their need for action. Be direct, open, and honest with them -- they won't much like game-playing or evasiveness, unless it is in the complete spirit of fun. Feed their need for spontaneity, and appreciate their playfulness. Understand their desire for the relationship to remain young and fresh. Aries likes to take the lead in love

(even if their Sun Sign is gentle Pisces) -- let them, at least most of the time. Indulge them their many whims, and understand that they thrive on competition, even when they're competing with you!

Short description:

Wants to take the lead in love, loving the conquest, can be a spendthrift with money, given to making impulsive purchases, seeks to keep things exciting in love. Very ardent. Spontaneous and charming in his direct and straightforward approach in love.

Venus in XI: Venus is in the eleventh house

Successful professional life in great part due to good relationships, friends or patrons. He finds love in the circle of friends.

The friendship level of your relationship needs to be genuine in order for you to sustain romantic interest. You tend to focus on a person's unique qualities -- those traits that make him or her stand out -- as the most attractive. Your relationships must possess some kind of unconventional element in order to keep your interest levels high. Calves and ankles are either erogenous zones for you, or parts of your body that are particularly attractive! You may meet lovers through group activities. Although you value friendships and group affiliations highly, you might jump into friendships without considering the responsibilities they might entail.

21 Sextile between Venus - Saturn

He has a good grasp of reality and of duty. He is thrifty, reserved and usually not given to showing off. He likes truth and justice. In love, his sentiments are sincere and deep, he never plays false. He is, of course, faithful in love and friendship. He might love a much older person, appreciating that person's intelligence and good sense.

36 Sextile between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

29 Trine between Venus - Pluto

His emotional and sex life can be powerful and rich. He lives out truly passionate love affairs. Extremely resourceful, he is also excellent at determining the worth or value of material things. He can help others to discover their own worth as well. He is naturally attracted to relationships that transform him, that are growing and evolving, and that are intense. He can use his strong intuition and understanding of others for good or for bad, and this depends largely on other aspects in the chart. He can be highly devoted and passionate to the things (and people) he loves. He can be quite persuasive.

Mars

Mars represents the desire for action and physical energy.

Mars is in Taurus

"Slow and steady wins the race" could easily be a motto for Mars in Taurus. These goal-oriented people are not known for their speed, but their staying power is tremendous. Generally calm and easygoing people, Mars in Taurus natives can have powerful tempers when they're overly provoked. They generally don't fly off the handle as quickly as others, however (unless Aries is prominent in their chart). Mars in Taurus people value strength and stability. They are driven by security and an especial fondness for personal possessions. Most are not afraid to work for what they want, and there is an overall patience to this position of Mars. If it takes a few years to achieve their goals, so be it. People born under a Mars in Taurus are often rather sensual people. Some are slow to arousal, but theirs is an earthy and powerful sensuality.

Most have well-defined long-term goals and the determination to achieve them. They usually are not the type of people to take on too many projects at once. If they don't think they can do it, they won't! It is almost impossible to get these people moving once they've made up their minds on a matter. You want them to go shopping with you? Unfortunately for you, about half an hour back, they've kicked up their heels, changed into something comfortable, and they simply won't budge. Immovable is the only way to describe Mars in Taurus people who have made up their minds. Adaptability is not their strong point. In a similar vein, attempting to rush Mars in Taurus people is a lesson in frustration. They won't alter their pace for most anything. If you can get past these "quirks", however, you'll find that Mars in Taurus natives are often quite reliable and strong personalities. It may just be worth the wait!

Mars in XII: Mars is in the twelfth house

So much of his energy goes into working life. He loves research. He could be a lab worker, doctor, police officer, teacher specializing in hospital, prison or hospice work. He can be indirect and very private. Rich dreams and fantasies.

With Mars in the twelfth house of the natal chart, you can struggle with asserting yourself in direct, natural ways in your youth, but with time and experience (and perhaps some hard work), you're likely to learn to work with this energy rather than allow it to work against you. Watch for a tendency to feel defeated before you've given something a real shot. You are extraordinarily resourceful, and you can handle many things on your own or in uniquely creative ways.

Though you may have a great deal of energy and drive, you lack confidence or the desire to put yourself and your interests first. Positively you can be very unselfish, working more on behalf of others than for yourself. You deny your own desires and needs too much, however, and you are likely to secretly become very angry, which can sabotage your finest efforts. There is a touch of the incurable romantic in your nature. Your daydreaming and fantasizing world is rich and precious to you. You also bring imagination into your sexual relationships, although you can take a bit of time to feel comfortable and to warm up to a new person in your life. Overcoming a vague and persistent feeling of guilt or doom can go a long way towards a healthier, happier approach to the pursuit of your desires.

-36 Square between Mars - Neptune

This is a challenging position, as you have difficulty trusting in your ability to go after things that you want in a direct manner. It may also be that you have difficulty pinpointing what it is that you want, or that part of you doesn't feel you deserve it due to a basic lack of self-confidence. You fear rejection as well as criticism, and often use roundabout means to go after what you want.

Your imagination is so powerful that it can be hard to trust your instincts. You easily imagine things going wrong, just as you easily fantasize about good things! Your desire nature is strong yet also very suggestible. You're attracted to mysteries and intrigue. Sexual experimentation is likely, as you are forever addicted to sensuality and unusual or perhaps even what many would consider perverted sexual scenarios. However, your sensual appetite might be much like a bottomless pit, and you could find yourself forever in a state of wanting more, tiring of regular sexual scenarios quickly, and endlessly searching for the next sensation. If an addiction to fantasy is present, you can find yourself constantly chasing a new and more complicated fantasy. It is only when you get into touch with your heart and discover your true desires that you realize that sensations are merely sensations--not deeply satisfying or fulfilling.

Fears of inadequacy can be great with this position, and you may either deny yourself as a result, or overcompensate, seeking out experiences in which you are pretty much assured positive feedback. Some of you will experience both of these extremes in your lifetime.

Although you can be very creative at keeping your motives and personal agenda hidden--in fact, many of you seem on the surface of things to be quite gentle and yielding--you might eventually become resentful if you feel the need to resort to sneakiness in order to get what you want out of life. If you do feel resentment for giving up your power to someone else, learn to avoid giving it up unless you truly understand that you are doing it for yourself, and not for someone else. Resentments have a way of building and distorting themselves into ugly matter if you don't deal with them properly and directly. You are often passive-aggressive in your approach to others, and this can cause a lot of problems in your life. You are usually found chasing a dream... or a fantasy. The former is probably the better path.

Adopting a more direct and assertive approach to life is something that you should be working towards. You will need to get over your feelings of guilt when you do adopt this approach. Learning to take responsibility for your actions, and to avoid blaming others for failures, is important. At your worst, you can be disorganized in your approach to life, easily procrastinating and lacking follow-through when you do begin a task. Some of the most important lessons you need to learn in life are self-control, self-assertion, and trust in yourself. At your best, you are a creative person with a powerful imagination and great stores of compassion.

Uranus in X: Uranus is in the tenth house

He must have an independent career with little in the way of dull routines, and that satisfies his need to move around, travel and that must in particular have an element of excitement, uncertainty, creativity, or risk attached. He can be eccentric.

He learns his greatest lessons and goes through the deepest transformations through partnerships. Power struggles can be an ongoing issue in close relationships. Compromise is learned over time.

0 Square between Pluto - Lilith

He may lead a double life. He may have a secret love affair but the secret doesn't last, or at the very least there are complications. Otherwise, this aspect can point to scandals whether or not they are real.

Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

Lilith in Pisces

He may have felt ashamed or off for being needy, compassionate, or wishy-washy, or for his spiritual side, and this person can feel uncomfortable or annoyed with people who resist labels, who are not very assertive or ready to take the lead. Denying these very human traits in himself can lead to extreme behaviors. Self-acceptance and integration of these traits in moderation can be empowering.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

North Node in Gemini

He has brilliant ideas and is the first to discover new things. However, he has a tendency to ignore the details and may avoid some responsibilities for fear of becoming too bogged down. Taking on too many activities can keep him from focusing on one or two paths, and this can be to his detriment in the long run.

Another life lesson is to understand the impact of his words. Speaking his truth should be done mindfully or else it may undermine his growth at times. A balance should be sought. He can be an excellent teacher and hold far more meaningful and intelligent exchanges with others in so doing. By learning to slow down and take care of business and to live in the present, he is likely to achieve far more happiness and a wonderful sense of inner balance. Qualities to develop: clarification, listening skills, attention to detail.

North Node in I: North Node in the First House

He is brilliant at negotiating. He is learning to assert himself, express himself more plainly and confidently, and act with more independence. Moving out of his comfort zone for him is developing his autonomy, but it is a fabulous lesson that boosts his relationships. Once he learns to embrace his independence, close partnerships can be happier and more fulfilling. Fear of making poor decisions can keep him in a state of fear. It is better to make some poor decisions and bounce back than to stay in a state of limbo. Qualities to develop: boldness, decisiveness, independence, assertiveness.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Pisces with ascendant Gemini

Ascendant is Gemini

Those born with Gemini rising see the world as a place to learn. They are curious about the people around them. Sounds similar to Sagittarius rising? Well it is, but there are some important differences. While Sagittarius seeks to expand their mental and physical horizons in a broad sense, Gemini is mostly interested in moving about in their social circles. These are people who love to ask questions, to move around freely, and to mingle. Definitely restless and often quick in physical expression, natives of the Gemini Ascendant exude an air of impatience even if they don't mean it. In fact, there is a cleverness to Gemini Ascendants that can intimidate some, especially sensitive folk. Their facility with words can be a wonderful asset, although sometimes Gemini rising individuals identify too much with their mental agility and forget, in their personal interactions and communications, to nurture the people around them. A certain lack of warmth in presentation can be the result, and although this style is generally a facade, it is not immediately apparent to most. People with, for example, predominant Water signs may feel a little ill at ease with Gemini rising people (that is, before they get to know them more personally), while strong Air types more fully appreciate the fun and cleverness of these individuals.

I have found two styles of presentation most common with Gemini rising people. One style is bubbly, changeable, talkative, and a little quirky. These natives are interesting and fun. They constantly explain things, whether it's their own behavior and opinion or those of the world around them. Another distinct "style" is a rather cool and intellectual demeanor. These natives are often quite witty and clever, but they present themselves in a less cheerful and changeable way than the first group. Their observations are sharp and the overall manner is a tad brusque. No matter the style, Gemini rising natives are given to analysis and making sense of their world. Their powers of observation are well-developed, they are mentally active (more often than not, their minds are racing!), and they almost always have something bright or witty to say. It is easy for individuals with this position to get sidetracked, as their curiosity is large, their minds are quick, and their attention spans rather short! As children, natives born with a Gemini Ascendant are often labeled as the intellectual, inquisitive, and perhaps odd child. Many feel their upbringing lacked some warmth. In one-to-one relationships, Gemini rising people often seek a certain amount of personal freedom and space. They enjoy intellectual debates and exchanging ideas. Although they often demand a fair amount of freedom, they are often just as willing to give their partners room to breathe.
